

Adept Audio®

Indoor/Outdoor Cabinet Loudspeakers

We thought the first thing a brand that designs speakers should do is learn to listen, so we listened.

And we think it paid off.

We learned that audio lovers want a premium brand with superb sonic performance and designs that are affordable. Ones that stand out from the interchangeable brands.

We also listened to our legendary engineering team who are at their best living outside the box. They designed a range of indoor and outdoor loudspeakers for home and commercial settings.

Adept cabinet loudspeakers are engineered for demanding hi-res audio streams and A/V systems. In addition, our timbre-matched sonic signature lets you mix and match our speakers as you choose for a true, no compromise design, every time.

Be sure to try Adept today.
You'll be glad you did.

Change Is In the Wind

AdeptAudio®

Introducing
Adept Indoor/Outdoor Loudspeakers

Almost instantly, you'll notice that something very different is beginning to happen.
Clear, brilliant musical soundscapes become the new normal in ambient sound.

Forget Ordinary. *Forever.*

Embrace

Your Next Unforgettable Moment

Your outdoor space looks familiar, yet it feels like a place you've never been before. People are more connected, conversations more engaging and intrusive noises just fade away.

Sounds Great. *Looks Good.*

Break Through Life's Noise With Great Sound

At the end of the day, people want to enjoy a break from everyday life. Music helps build a dynamic experience that engages people's senses and creates an emotional connection to their surroundings. Adept's Indoor/Outdoor loudspeakers let you have sound wherever you want it.

What you get is a system that has more dynamic range and bass with lots of bottom-end punch. Its sound field remains clear whether creating a calm, relaxing setting or turning it up loud enough to turn up the energy and get people bouncing.

Set Your Stage with the Sound of Adept

The Adept IO80 is designed for larger areas where you need broad coverage across an entire sound field. They are ideal for large backyards and pool decks as well as indoors and outdoors at restaurants, offices and buildings.

Adept's low-distortion speakers cut through the ambient roar, remain crystal clear at low-listening levels and can sustain higher volumes for as long as needed.

Adept Rocks

Adept Audio's 8-inch 2-Way Rocks deliver rich sound that is both out-of-sight and out-of-mind. They are rugged performers that will deliver punchy, pure high fidelity sound for rocking and relaxing in the evening after a full day on the job.

Available in natural granite or sandstone finishes, the high-quality ROCK80 blends into the environment, making it the perfect addition to outdoor barbeques, pool landscapes, courtyards and more.

With our long-lasting, all-weather design, Adept Rocks are ready for any kind of music you throw at them.
